MARCH 2011

Prevention Can Turn the Tide of Rising Healthcare Costs

Business journals have chronicled the rise in healthcare costs for the past 30 years. The U.S. spends more per capita than any other nation on its medical care, at 17.5 percent of the gross domestic product. Individuals increasingly are looking for ways to cut their healthcare costs.

The old proverb states "an ounce of prevention is worth a pound of cure." But true preventive medicine is not the early detection screenings, according to physician and journalist Abraham Verghese in the Wall Street Journal article, "The Myth of Prevention." "If your preventive strategy is medical, if it involves us, if it consists of screening, finding medical conditions early, shaking the bushes for high cholesterols, or abnormal EKGs, then more often than not you don't save anything and you might generate more medical costs."

What Is True Prevention?

True preventive care advises the individual to make lifestyle choices that establish normal health and avoid chronic health problems.

Individuals can make lifestyle and dietary choices that pay true health dividends. This is a practical first step to our nation's runaway healthcare costs.

Feel Your Best With These
ALTRUM Core Supplements

Save On Future Healthcare Costs

The best healthcare always begins with the care you give yourself. Proven nutritional supplements provide a foundation for feeling your best and enjoying life.

Serious Protection for Male Health

"The older a man gets, the more likely he is to experience prostate problems, especially men past the age of 45. Men with prostate problems may face surgery, standard radiation, hormone therapy or radioactive seeds – all of which lead to potential sexual, urinary or other problems.

ALTRUM *Prostate Formula* contains powerful nutrients that can help ward off and diminish prostate problems. AMSOIL Dealers need to seriously consider this product.

Vigilant self care, better nutrition and prompt medical attention when necessary are your best defenses to restore health."*

*– Greg Sawyer
ALTRUM Division manager*

Every man at some time in his life may experience prostate problems.

The most common prostate problem for men over 50 is prostate enlargement, known as benign prostatic hyperplasia (BPH.)

Some of the annoying symptoms are:

- ***A hesitant, interrupted, or weak stream of urine***
- ***Leaking***
- ***Urgency***
- ***Frequent urination, especially at night***
- ***Reduced sexual function***

A.J.'s Prostate Formula (DPF) is a powerful male health product with 14 natural ingredients that provide vital nutrition for the prostate gland.

The nutrients in *A.J.'s Prostate Formula* help restore normal prostate health.* Studies reveal nutritional supplements are effective in preventing the onset of BPH. Because they are food, there are no known side effects such as erectile dysfunction.

A.J.'s Prostate Formula is the most complete prostate supplement available. It contains the highest quality natural ingredients that provide important nutritional support for the prostate gland, which is directly involved with male function.*

Doctors say that 100% of men will eventually experience prostate problems unless they take preventative action!

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent disease.
** Please check with your physician when using prescription medications in combination with food supplements.

Top Nutrients for Male Health

- **Saw palmetto** is an herbal extract from ripe berries of the saw palmetto tree. It is typically used for benign prostate hyperplasia (BPH), inflammation of the prostate gland, a common problem for men over the age of 50. Americans have used saw palmetto for more than 200 years as food and for health purposes including as a tonic, antiseptic and to maintain a healthy urogenital system. *

A review of 18 studies published in the *Journal of the American Medical Association* involving more than 3,000 men found that saw palmetto produces improvements in urine flow. A recent survey indicates more than two million U.S. men use saw palmetto. *

- **Pygeum africanum** is derived from an African evergreen. It has been approved for BPH in Europe since the early 1970s. Studies show it helps balance prostate inflammation and renew normal size, promote urination and help rid the prostate of cholesterol deposits that can occur with BPH. *
- **Stinging nettle root** (urtica dioica) helps normalize the inflammatory response and acts as a natural diuretic. Studies indicate nettle root helps balance enlarged prostate (BHP), renewing normal/youthful prostate size, ease and comfort; and even greater results when combined with pygeum. The best results to normalize prostate size often combine these two herbs with saw palmetto. *
- **Vitamin B6** is crucial for a healthy immune system and essential for zinc metabolism. *

- **Lycopene** is a potent antioxidant. The largest, most comprehensive study evaluating prostate health and lycopene revealed men with more lycopene in their diets displayed potentially better prostate health. *

- **San-Qi ginseng** is an adaptogen that supports the nervous and circulatory systems and promotes blood flow. It is also known to help reduce blood cholesterol, which is a contributor to BPH. *

- **Pumpkin seed powder** contains essential fatty acids needed for proper immune and prostate function, as well as being a good source of zinc, potassium and magnesium. Oil in pumpkin seeds may promote prostate health since it appears to interrupt the triggering of prostate cell multiplication by testosterone metabolites. *

- **L-glycine, L-glutamic acid and L-lysine** are amino acids that support proper prostate health and reduce nightly urination. *

- **Zinc** is so vital to healthy male function it has been called the "male mineral." No other gland or organ in the body has as much zinc as the prostate. Therapeutic doses have been shown to bring prompt improvement in BPH. Zinc should be taken with vitamin B6 for maximum effectiveness. *

- **Vitamin E** and selenium may enhance protection of prostate health. *

A.J.'s Prostate Formula – The Most Complete Male Support on the Market

A.J.'s Prostate Formula supplies vital nutrients that support healthy, normal function that may help:

- **Reduce the number of nightly trips to the bathroom** *
- **Promote normal comfortable urination** *
- **Balance (BPH), renewing ease and comfort** *
- **Maintain normal prostate size with advancing age** *
- **Enhance male function** *

Feel the full benefits in six to eight weeks of daily use.
